

## **METER TECHNICIAN III**

**General Statement of Duties:** Performs highly skilled operations in the repair of parking meters; does related work as required.

**Distinguishing Features of the Class:** The work in this class involves the repair and maintenance of parking meters in the field and in the shop. Duties are performed under general supervision. This class is distinguished from Meter Technician I and II by the higher level of skill utilized and the amount of independence afforded. Supervision may be exercised over the work of Meter Technician I and II.

**Examples of Work:** (Illustrative only)

- Performs regular inspections of City parking meters to wind, oil;
- Repair, adjust or dismantle meters on streets and in lots;
- Dismantles, assembles, adjusts, repairs and paints meters and replaces parts and glass in shop;
- Installs meter posts and meter heads;
- Repairs ticket machines and electric gates in parking lots by checking electrical components and replacing worn or defecting parts;
- Opens meters and collects coins;
- Makes layouts for new parking locations;
- Operates Cushman;
- Prepares reports and assists in the maintenance of department records;
- Assists in training and supervision of other staff.

**Required Knowledge, Skills and Abilities:** Comprehensive knowledge of tools, methods and practices used in assembly and repair of small mechanisms and in the use of hand and machine tools; mechanical aptitude and manual dexterity; ability to establish and maintain good relationships with the public; willingness to work out-of-doors under varying weather conditions; good physical condition.

**Acceptable Experience and Training:** Any combination of education and experience which provides the required knowledge, skills and abilities. Must have a valid Iowa Motorcycle license.
